

McDonald Construction

TM Productions dba McDonald Construction is located in Starkville, Miss., and is owned and operated by Tanner McDonald. Established in 2014, the firm offers services that include but are not limited to highway, street, and bridge construction, concrete paving, box culverts, erosion control, fencing, demolition, and dirt work. The firm has successfully completed projects in an efficient and timely manner throughout the state, Alabama, Louisiana, and Tennessee.

Since he was a young boy, McDonald enjoyed building things. He has a background in construction and Engineering. In addition, McDonald obtained a B.S. in Engineering. His background and skillset have allowed him to work various MDOT projects that entailed slide repairs, box culverts, parking lots, local public agency jobs, as well as a Medgar Evers Park project. McDonald Construction is currently working on two box culvert replacements in Jackson and Tupelo along with a sidewalk project in Chickasaw County. Projected jobs for the firm include a sidewalk for Delta State University, a box culvert, and road in Wayne County.

No matter the industry, a company can be unique in terms of delivery and quality of services. McDonald Construction takes pride in completing projects right on the first time and ahead of schedule. "Out of all the services we provide, concrete and drainage is what we do best," said McDonald.

McDonald Construction is built on integrity, a commitment to excellence and lasting results. As an entrepreneur, McDonald leaves a word of advice for DBEs and small businesses alike. "Always keep up with your paperwork and stay organized because it can help you track the success of your business," stated McDonald.

For all of your Construction needs, contact Tanner McDonald at 601-624-0239 or send correspondence to mconstruction@mcdonaldconstruction.org. You can also visit the company website at www.mcdconstruction.org.

A MISSISSIPPI SUCCESS STORY

FOUR SEASONS ENTERPRISES, LLC.

Located in Jackson, Miss., Four Seasons Enterprises is owned and operated by Robert Love. The firm has been in business for over 10 years and offers services such as site preparation, trucking, clearing, paving, concrete repair, disaster debris removal and waste collection. Love works with an outstanding management team that includes his wife, Angela Love and son, Durell Love. My wife and son bring a wealth of knowledge to the table and I'm happy to share this legacy with them," said Love.

The firm has successfully completed projects with prime contractors that include Fordice Construction, Superior Asphalt, Hemphill Construction, APAC Mississippi, Dickerson & Bowen, and Delta Constructors. Four Seasons most recent jobs entailed the demolition of the Casa Grande Apartments, Butts Park, and a clearing job in Natchez, MS. One of the firm's largest projects to date entailed debris cleanup for the City of Jackson. Regarding future projects, Love said that he will continuously aggressively bid projects within his field of expertise.

Delivering quality services has helped the firm grow as well as build its reputation. "My company has grown tremendously. "We have been awarded as well as built relationships with larger companies," said Love. He also attributed his company's growth to vigorous marketing efforts such as network events and having copies of his statement of qualifications ready and available to distribute.

Being a successful small business means Love can give back to his community by sponsorships and hiring local people. "I see my company as a platform to do more for others as I build a future for my family," said Love.

Using free and available resources has helped Love throughout his business career. "MDOT DBE Supportive Services/Systems Consultants have assisted me by providing project information, answering any questions I have, and helping me connect with key decision makers.

For all of your construction and hauling needs contact Robert Love at 601-331-2828 or send correspondence to rlovemsm@yahoo.com.

OSHA Safety Tip of the Month!

Wildfires

Wildfires are common disasters that can spread quickly, particularly during dry conditions. Learning about wildfire risks and planning can help protect against the destructive impacts of wildfires. In the aftermath of a wildfire, workers may be involved in a variety of response and recovery operations. Some operations, such as utility restoration, cleaning up spills of hazardous materials, and search and rescue, should only be conducted by workers who have the proper training, equipment, and experience.

Planning

Having an evacuation plan in place before a wildfire occurs can help avoid confusion and prevent injuries. A thorough evacuation plan should include:

- Conditions that will activate the plan.
- Chain of command
- Emergency functions and who will perform them.
- Specific evacuation procedures, including routes and exits.
- Procedures for accounting for personnel, customers and visitors.
- Equipment for personnel.
- Review the plan with workers.

Some businesses are required to have an Emergency Action Plan meeting the requirements under [29 CFR 1910.38](#); see [Evacuation Plans and Procedures eTool](#) for more information.

In addition to creating an evacuation plan, making a safety zone around your business or residence can help protect people and property. Within a 30-foot zone of buildings, remove combustible material and reduce the volume of vegetation to a minimum. In doing so, stay clear of overhead lines (maintain at least 10-foot clearance) and use [29 CFR 1910.269](#) qualified line-clearance tree trimmers. Clear branches and shrubs that are within 15 feet of chimneys or stovepipes and remove vines from the walls of buildings. Frequently mowing grass and replacing vegetation with less flammable species can provide better protection against spreading wildfires. In addition to the 30-foot safety zone, an additional secondary 70-foot safety zone is recommended – increasing the distance between a building and vegetation will increase the level of protection.

Introduction and EV Development Plan

The Mississippi Department of Transportation (MDOT) is developing a plan to ensure all Mississippian's and visitors have access to the Electric Vehicle (EV) charging infrastructure with a focus on the connectivity of rural and urban areas. The National Electric Vehicle Infrastructure (NEVI) Formula Program is providing dedicated funding to State's to deploy Electric Vehicle (EV) charging infrastructure and establish a more interconnected network to facilitate data collection, access, and reliability. Funding under this program is initially directed to designated Alternative Fuel Corridors (AFC) for electric vehicles to build out this national network, particularly along the Interstate Highway System.

Electric Vehicle (EV) - Alternative Fuel Corridor (AFC) Nomination – Round 6

Corridor-Pending EV AFC designations: I-10, I-20, I-22, I-55, I-59, I-69, and I-269. [Click here](#) to view Corridor-Pending EV AFCs.

Next Steps

On September 14, 2022, FHWA announced the approval of MDOT's Electric Vehicle Infrastructure Deployment Plan for implementation. [Click here](#) to view MDOT's approved plan. As we move towards implementation of the program, we intend to provide more information regarding site locations and ways to stay engaged. Additionally, we will continue to provide updates on the website, as well as reevaluate and update the plan on an annual basis.

CFI Grant Opportunity

The Charging and Fueling Infrastructure Discretionary Grant Program (**CFI Program**) is a new competitive grant program created by the Bipartisan Infrastructure Law to strategically deploy publicly accessible electric vehicle charging and alternative fueling infrastructure in the places people live and work – urban and rural areas alike – in addition to along designated Alternative Fuel Corridors (AFCs). CFI Program investments will make modern and sustainable infrastructure accessible to all drivers of electric, hydrogen, propane, and natural gas vehicles.

This program provides two funding categories of grants:

- Community Charging and Fueling Grants (**Community Program**)
- Alternative Fuel Corridor Grants (**Corridor Program**).

The Bipartisan Infrastructure Law provides \$2.5 billion over five years for this program. This NOFO offers up to \$700 million from Fiscal Years 2022 and 2023 to strategically deploy electric vehicle (EV) charging infrastructure and other alternative fueling infrastructure projects in urban and rural communities in publicly accessible locations, including downtown areas and local neighborhoods, particularly in underserved and disadvantaged communities.

For more information visit www.mdot.ms.gov.

HIGHLIGHTED PROJECTS FOR THE MONTH OF JUNE 2023**Dupont Tract Road Repair and Replacement Project****Bid Date:** June 20, 2023**Bid Time:** 3:00pm**Project Location:** Jackson, MS**Bids To:** The MDEQ office located at 515 East Amite St., Jackson, MS 39201 or electronically**Architect/Engineer:** Sarah McLellan, Civil Engineer, Covington Civil and Environmental, LLC Gulfport, MS
(228) 396-0486, (228) 396-0487, sarah@ccellc.us**Scope of Work:**

Site work and paving for a road / highway in Jackson, Mississippi. Completed plans call civil work for a road / highway. This Project is solicited by MDEQ as part of the Wolf River Coastal Preserve Habitat Management - Dupont Tract and Bells Ferry Tract Project. The Project is administered by MDEQ and funded through the Mississippi Trustee Implementation Group Final Restoration Plan II/Environmental Assessment : Wetlands, Coastal, and Nearshore Habitats and Oysters (RPII/EA) to partially address the injuries caused by the spill pursuant to and in accordance with the Oil Pollution Act and the Consent Decree entered in United States v. BPXP et al., Civ. No 10-4536, centralized in MDL 2179, In re; Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico on April 20, 2010 (E.D La,) on April 4, 2016 The Project includes the construction of a 12-foot-wide gravel roadway within an existing 25-foot-wide dirt right-of-way approximately 12,000 linear feet in length through the Wolf River Coastal Preserve DuPont Tract. Depressions in the roadway will be repaired back to original grade with suitable existing fill materials or #4 stone as specified. Swales will be constructed on either side of roadway to accommodate natural drainage patterns. Three existing concrete low-water crossings will be repaired/cleaned out and one new concrete low-water crossing will be constructed. Two existing culverts will be repaired/cleaned out. If you have any questions, please contact me at 601.961.5270 or mgreen@mdeq.ms.gov. Thanks for your help in this matter.

Bidders shall also submit a current financial statement, if requested by the City. The successful bidder will be required to furnish a Performance Bond and a Payment Bond each in the amount of one hundred percent (100%) of the contract amount. Bidders choosing to submit electronically are required to contact the Williams Engineering Consultants, Inc. at 720 North Lamar Boulevard Oxford, Mississippi 38655 for information regarding electronic bidding requirements. Work to be performed shall be in accordance with the Mississippi State Highway Standard Specifications for Road and Bridge Construction, 2017, together with all amendments and/or special provisions and/or addenda to the standards duly approved and adopted, unless otherwise noted in these specifications. The attention of Bidders is directed to the provisions of Subsection 102.07 pertaining to irregular proposals and rejection of bids.

HIGHLIGHTED PROJECTS FOR THE MONTH OF JUNE 2023**Y1DA--Design-Bid-Build Procurement Biloxi MS****Bid Date:** June 20, 2023**Bid Time:** 12:00pm**Project Location:** Biloxi, MS**Bids To:** U.S. Department of Veterans Affairs - Office of Construction and Facilities Management
Washington, DC ,(202) 632-4607, (202) 565-4155, cfm@va.gov**Architect/Engineer:** Lara Lutz, Contracts Administrator, U.S. Department of Veterans Affairs - Office of Construction and Facilities Management Washington, DC, (224) 610-3881, (202) 565-4155
lara.lutz@va.gov**Scope of Work:**

Demolition, site work, renovation, and addition to a municipal facility in Biloxi, Mississippi. Completed plans call for the addition of a municipal facility; for the demolition of a municipal facility; for the renovation of a municipal facility; and for site work for a municipal facility. 36C10F23R0004 RFI SUBMISSION SHEET RFI NUMBER RFI RESPONSE 1 From my understanding, the amendment states that the ceiling lift portion (equipment only) will be removed from the scope of work for solicitation 36C10F23R0004. Instead, the ceiling lift equipment will be purchased directly by the VA in the future. However, the installation portion of the work will remain within the existing solicitation, making it the contractor's responsibility. Could you please confirm if my understanding is correct the intent is that the VA will purchase the equipment concurrent with this construction contract so that the Contractor can coordinate the installation with the other activities of this construction contract. The Contractor will be responsible for the installation of the system as outlined in the previous Amendment. 2 Furthermore, the initial solicitation was released as a sole source contract for Guldman. However, it came to my attention that the justification for this sole source determination was deemed unreasonable and overturned. I would like to inquire if the new solicitation will be reissued as an open-source contract instead. As Amendment A0003 changed the lifts from CC to VC, no new amendment will be issued or a new solicitation.

HIGHLIGHTED PROJECTS FOR THE MONTH OF JUNE 2023**2023 Street & Lot Paving Improvement****Bid Date:** June 21, 2023**Bid Time:** 10:00am**Project Location:** Clinton, MS**Bids To:** Office of the City of Clinton located at Department of Finance and Administration, 530 Brighton Park Drive, Clinton, MS 39056**Architect/Engineer:** Janet Holiday, Civil Engineer, WGK Inc. Clinton, MS (601) 925-4444, (601) 924-6708
jholiday@wgkengineers.com**Scope of Work:**

Site work and paving for a mixed-use development in Clinton, Mississippi. Completed plans call for site work for a road / highway; sidewalk / parking lot; for paving for a road / highway; and sidewalk / parking lot. NOTICE is hereby given that the City of Clinton, Mississippi, will receive written sealed bids for the furnishing of all labor and materials, and for performing all activities specified in the Contract Documents, for the construction of the 2023 Street & Lot Paving Improvement. The project includes the Milling, base repair, and asphalt overlay on certain roads, drives and lots within the City of Clinton, MS The Contract Time will be seventy-five (75) consecutive calendar days, and the liquidated damages will be \$500 per consecutive calendar day thereafter. Bids for this work will be accepted only under the name of the Bidder to whom the Contract Documents and Addenda, if any, have been issued by the Engineer. Bids received by bidders to whom the Contract Documents were not issued by the Engineer will be returned unopened. State law requires a non-resident bidder to attach/include a copy of his resident state's current law pertaining to such state's treatment of non-resident contractors with their bid. Any bid submitted by a non-resident contractor which does not include the non-resident contractor's current state law shall be rejected and not considered for award. Bids will be considered by the City of Clinton at or before the next regular meeting thereof to be held within thirty (30) days of the date of receipt of bids. The City of Clinton reserves the right to waive any and all informalities in the bidding and to reject any and all bids.

HIGHLIGHTED PROJECTS FOR THE MONTH OF JUNE 2023**Trees and Landscape Rehabilitation -- Natchez MS**

Bid Date: June 21, 2023
Bid Time: 10:00am
Project Location: Natchez, MS
Bids To: EMAIL QUOTE OR OFFER TO andre_ward@nps.gov
Architect/Engineer: Ward Evans, Contracts Administrator, US National Park Service (NPS) - Natchez Trace Parkway, Tupelo, MS (662) 680-4025 (662) 680-4034, Andre_Ward@nps.gov

Scope of Work:

This is a service / maintenance or supply contract in Natchez, Mississippi. Contact the soliciting agency for additional information. The United States Department of Agriculture (USDA), Agricultural Research Service (ARS) has a requirement to replace vault 5 electrical equipment at the National Center for Agricultural Utilization Research in Peoria, Illinois. Solicitation 12505B23R0005 is issued as a Request for Proposals (RFP). The solicitation document, with the incorporated clauses and provisions, is issued in accordance with the Federal Acquisition Regulation (FAR) Parts 15 and 36 and will be incorporated in the awarded firm-fixed price order. Interested vendors should reference the solicitation documents for all terms and conditions. All interested parties are responsible for monitoring this website to ensure they have the most current information (i.e. Amendments) for the solicitation. No paper solicitation will be available. Notice of Set-Aside for Small Business Concerns: This requirement is a Service-Disabled Veteran Owned Small Business Set Aside. The associated NAICS Code is 238210, Electrical Contractors and Other Wiring Installation Contractors. The small business size standard is \$19.0 million. Magnitude of Construction is between \$250,000 and \$500,000. Period of performance is 540 days after receipt of the Notice to Proceed. Bonds: Bid, Payment, and Performance Bonds are required. Site Visit: Organized site visits are scheduled for June 13, 2023, at 1:00 PM Central Daylight Time (CDT) and June 14, 2023 at 9:00 AM CDT. The site visit will be held at the project location. The same information will be provided at all site visits, so offerors only need to attend one. In order to attend the site visit, you MUST pre-register by 3:00 PM CDT on June 12, 2023. Pre-register by emailing josh.dobereiner@usda.gov with your company name, the name(s) of the representatives who will attend, and which site visit you are registering for. An email response will be sent confirming your registration. The site visit will be held for the purpose of providing contractors with the opportunity to familiarize themselves with the site which may be helpful in the preparation of offers. Attendance at this site visit is not mandatory for offer submission; however, failure to visit the site will not relieve or mitigate the successful contractor's responsibility and obligation to fully comply with the terms, conditions and specifications contained and/or referenced in this document. All questions regarding this solicitation must be submitted in writing to the Contracting Officer, Josh Dobereiner, via email to josh.dobereiner@usda.gov. Questions must be submitted no later than 4:00 PM CDT on June 27, 2023. Answers to all questions received by that time will be posted as an amendment to the solicitation. No questions will be answered after this date unless determined to be in the best interest of the Government as deemed by the Contracting Officer. Telephone requests for information will not be accepted or returned. Interested offerors must be registered in the System for Award Management (SAM). To register, go to www.sam.gov. Instructions for registering are on the web page (there is no registration fee). The solicitation and associated information will be available only from the Contract Opportunities page at sam.gov. This solicitation is NOT an invitation for bids and there will be NO formal public bid opening. All inquiries must be in writing via email to the persons specified in this solicitation. All answers will be provided in writing via posting to the web. DISCLAIMER: The official contract documents are located on the government webpage and the Government is not liable for information furnished by any other source. Amendments, if/when issued, will be posted to Contracting Opportunities for electronic downloading.

HIGHLIGHTED PROJECTS FOR THE MONTH OF JUNE 2023

Removal, Repair, and Replacement of Bridge

Bid Date: June 27, 2023

Bid Time: 2:00pm

Project Location: Byram, MS

Bids To: The City Hall of Byram at 5901 Terry Road, Byram, Mississippi.

Architect/Engineer: McMaster and Associates Inc., 212 Waterford Square, Madison, Mississippi 39110

Scope of Work:

Demolition, site work, paving and new construction of a bridge / tunnel in Byram, Mississippi. Completed plans call for the demolition of a bridge / tunnel; for the construction of a bridge / tunnel; for site work for a bridge / tunnel; and for paving for a bridge / tunnel. The work shall consist essentially of the following items: Removal and storage of existing bridge, driving new piles, reinstalling stored bridge components, milling, and overlaying. All other related items of work required to complete the project as shown on the plans and specified in the Contract Documents. The above general outline of features of the work does not in any way limit the responsibility of the contractor to perform all work and furnish all plant, labor, equipment, and materials required by the specifications and the drawings referred to therein. The attention of bidders is directed to the Contract Provisions governing selection and employment of labor. Minimum wage rates for Federal-Aid projects have been predetermined by the Secretary of Labor and are subject to Public Law 87-581 Work Hours Act of 1962, as set forth in the Contract Provisions. The City of Byram in Hinds County hereby notifies all Bidders that it will affirmatively insure that in any contract entered into pursuant to this advertisement, disadvantaged and women's business enterprises will be afforded the full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, sex, age, disability, religion, or national origin in consideration for an award. Each bid shall be accompanied by a Cashier's check, Certified Check on a solvent bank or a Bidder's Bond issued by a Surety Company licensed to operate in the State of Mississippi, in the amount of five percent (5%) of the total bid price, payable to the City of Byram as bid security. The successful bidder will be required to furnish a Performance Bond and a Payment bond each in the amount of one hundred percent (100%) of the contract amount the proposal and contract documents in its entirety shall be submitted in a sealed envelope (or submitted electronically as shown above) and deposited with the Chancery Clerk, 5901 Terry Road, Byram, Mississippi prior to the hour and date above designated. Work to be performed shall be in accordance with the "Mississippi State Highway Standard Specifications for Road and Bridge Construction, 2017", together with all amendments and/or special provisions and/or addenda to the standards duly approved and adopted, unless otherwise noted in these specifications. The attention of Bidders is directed to the provisions of Subsection 102.07 pertaining to irregular proposals and rejection of bids.
